PROFILE

Brazilian with Portuguese citizenship, I have interest on front-end development and quality of journey on user experience. I aim to conciliate system architecture with efficiency of computer processing towards human behavior. Daily, my objective is to apply concepts of interaction design, UX metrics, reactive forms, state management and information architecture on every project I work.

EXPERIENCE

JUNIOR SOFTWARE ENGINEER   11/2021 - CURRENT
Itaú Unibanco, São Paulo, São Paulo, Brazil
